

APT DATAMATRIX LIMITED

At APT Datamatrix, your data is always in reliable hands. Featuring a purpose-built Network Operation Center, completely redundant facilities, optimized power, and a green architecture, the self-owned Tier III+ data center is managed by experienced staff and is backed by IBM's design and operational excellence.

APSTAR BY APT SATELLITE

APT Datamatrix Limited, offers the right blend of experience, expertise and equipment that you need. Situated strategically near the Tai Po waterfront park, the data center enables us to support your sustainable growth. Your data is in right hand.

At APT Datamatrix, location really matters. Being more than 10 km from Tsuen Wan, and over 20 km from Tseung Kwan O business centers, the IDC is disaster-proof.
