BUSINESS REVIEW

In-Orbit Satellites

For the first half year of 2015, the Group's in-orbit satellites and their corresponding ground TT&C (telemetry, tracking and command) systems and earth station have been operating under normal condition during the period and continue to provide reliable and high quality services to the Group's customers. As at 30 June 2015, the total transponder utilisation rate of the Group's satellites was 73.6%.

The Group's in-orbit satellites, namely, APSTAR 5, APSTAR 6, APSTAR 7, APSTAR 7B and APSTAR 9A, have integrated to form the super wide and strong satellite service capability provided to Asia, Australia, Middle East, Africa, Europe, and the Asia Pacific Region, covering more than 75% of the world's population.

APSTAR 5

APSTAR 5, positioned at 138 degree East geostationary orbital slot, with footprints covering Asia, Australia, New Zealand, Pacific Islands and Hawaii. The Group holds 20 C-band transponders and 9 Ku-band transponders of this satellite. As at 30 June 2015, the utilisation rate of APSTAR 5 was 77.7%. The Group is in the course of considering the replacement satellite arrangement for APSTAR 5.

APSTAR 6

APSTAR 6, positioned at 134 degree East geostationary orbital slot, is equipped with 38 C-band transponders and 12 Ku-band transponders with footprints covering the regions in Asia, Australia, New Zealand, Pacific Islands and Hawaii. As at 30 June 2015, the utilisation rate of APSTAR 6 was 80.8%.

APSTAR 7

APSTAR 7, positioned at 76.5 degree East geostationary orbital slot, is equipped with 28 C-band transponders and 28 Ku-band transponders with footprints covering up to 75% of the world's population in Asia Pacific Region, Middle East, Africa and Europe. As at 30 June 2015, the utilisation rate of APSTAR 7 was 60.8%.

APSTAR 7B

APSTAR 7B is the backup satellite for APSTAR 7. Subsequent to the successful launch of APSTAR 7 in 2012, APSTAR 7B has already been transferred to China Satellite Communications Company Limited ("China Satcom"), and was launched and positioned at 87.5 degree East geostationary orbital slot with footprints covering Asia Pacific Region, Middle East and Africa. Starting from the second half of 2013, the Group may lease from China Satcom certain transponder capacities of APSTAR 7B and provide transponder services of the satellite to customers for expanding customer base and market reach.

APSTAR 9A

In the first half of 2015, the Group continued to lease from China Satcom APSTAR 9A transponder capacities at 142 degree East orbital slot. APSTAR 9A has developed a strong customer base for its replacement satellite, APSTAR 9. Meanwhile, APSTAR 9A has achieved satisfactory growths in business revenue and profit each year since 2014 and secured market share for APT Group. As at 30 June 2015, the utilisation rate of APSTAR 9A was 86.0%.

Future Satellite

APSTAR 9

As at 30 June 2015, the construction progress of the APSTAR 9 has been smooth and is expected to be launched in October, 2015. After the in-orbit delivery of the satellite at 142E degree orbital slot, it will subsequently replace APSTAR 9A. APSTAR 9 will take up the strong customer base of APSTAR 9A upon the completion of the satellite replacement process. The Group believes that APSTAR 9 will further enhance the Group's capability of transponder services, broadcasting services and telecommunication services in Asia Pacific Region leveraging the in-flight connectivity and maritime demands so as to expand the customer base and increase the business revenue and profit.

Transponder Lease Services

For the first half year of 2015, certain customers have not been able to renew the contract after expiration, which resulted in the decline of the utilisation rates, but the Group has maintained the utilisation rates at high level. The Group has maintained its original market shares and major customers as well as increased new customers in the Asia Pacific Region, Middle East and Africa, and has further enhanced the Group's customer base and market outreach.

Satellite TV Broadcasting and Uplink Services

The Group's wholly-owned subsidiary, APT Satellite TV Development Limited, provides satellite TV broadcasting services under its Non-domestic Television Programme Service Licence, supporting the Group's new business growth by means of MCPC Platform Uplink Services.

Satellite-based Telecommunications Services

The Group continues to provide satellite-based external telecommunication services such as VSAT, facilities management services, satellite telecommunication and satellite television uplink services under its Unified Carrier Licence of Hong Kong newly obtained in the first half of 2015 to telecommunication operators or customers including satellite operators and Internet service providers in the region.

Data Centre Services

The Group has expanded its telecommunication services to data centre services with its existing facilities and earth station as one of the value-added services for its customers with excellent business growth potential and excellent synergic effect with satellite services, broadcasting services and telecommunication services.

BUSINESS PROSPECTS

Looking forward to the whole year of 2015, the supply of transponders in the market has increased significantly in the Asia Pacific Region, Middle East and African Region. The market competition of the satellite industry will become fiercer and the market will be subject to substantial price downward pressure. Nevertheless, the transponder utilisation rates of the Group's satellites, APSTAR 5, APSTAR 6, APSTAR 7, APSTAR 7B and APSTAR 9A will be maintained at a high level and will achieve satisfactory profit. The Group will continue to strengthen its competitive edges in market competition and achieve synergic effect from various value-added services in TV broadcasting services, telecommunication services and data centre services for achieving business and profit growth.

FINANCE

As at 30 June 2015, the Group's financial position remains very strong and the Group has achieved continuous improvement in its operation. Please refer to financial section for detailed analysis.

NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT

(Expressed in Hong Kong dollars unless otherwise indicated)

1. BASIS OF PREPARATION

The interim financial report of APT Satellite Holdings Limited (the “Company”) and its subsidiaries (the “Group”) has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with International Accounting Standard (“IAS”) 34, “*Interim financial reporting*”, issued by the International Accounting Standards Board (“IASB”) and Hong Kong Accounting Standard (“HKAS”) 34, “*Interim financial reporting*”, issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). It was authorised for issue on 25 August 2015.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2014 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2015 annual financial statements. Details of these changes in accounting policies are set out in note 2.

The preparation of an interim financial report in conformity with IAS 34 and HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2014 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with International Financial Reporting Standards (“IFRSs”) or Hong Kong Financial Reporting Standards (“HKFRSs”).

The interim financial report is unaudited, but has been reviewed by the Company’s auditors, KPMG, in accordance with Hong Kong Standard on Review Engagements 2410, “*Review of interim financial information performed by the independent auditor of the entity*”, issued by the HKICPA. KPMG’s independent review report to the Board of Directors is included on pages 33 to 34.

The financial information relating to the financial year ended 31 December 2014 that is included in the interim financial report as comparative information does not constitute the Company’s statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2014 are available from the Company’s registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 24 March 2015.

2. CHANGES IN ACCOUNTING POLICIES

The IASB has issued the following amendments to IFRSs that are first effective for the current accounting period of the Group and the Company. The equivalent amendments to HKFRSs, consequently issued by the HKICPA, have the same effective date as those issued by the IASB and are in all material respects identical to the pronouncements issued by the IASB.

- *Annual Improvements to IFRS/HKFRSs 2010-2012 Cycle*
- *Annual Improvements to IFRS/HKFRSs 2011-2013 Cycle*

None of these developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

3. SEGMENTAL REPORTING

Operating segment

The Group identifies operating segments and prepares segment information based on the regular internal financial information reported to the executive directors for their decisions about resources allocation with respect to the Group's business components and for their review of the performance of those components. The business components in the internal financial information reported to the executive directors are determined based on the Group's major operations. Since over 90% of the Group's revenue, operating results and assets during the six months ended 30 June 2015 and 2014 were derived from the provision of satellite transponder capacity and related services, no operating segment analysis is presented.

Geographical information

The Group's operating assets consist primarily of its satellites which are put into services for transmission to multiple countries but not based within a specific geographical location. Accordingly, no segment analysis of the carrying amount of segment assets by location of assets is presented.

The Group is domiciled in Hong Kong. The revenue derived from customers in (a) Hong Kong, (b) Greater China (which includes Mainland China, Taiwan and Macau but excludes Hong Kong), (c) Southeast Asia and (d) other regions for the six months ended 30 June 2015 are \$54,682,000, \$147,790,000, \$255,171,000 and \$140,284,000 respectively (six months ended 30 June 2014: \$63,562,000, \$141,907,000, \$257,274,000 and \$165,197,000 respectively).

Taxation outside Hong Kong includes profits tax and withholding tax paid or payable in respect of the Group's income from provision of satellite transponder capacity to customers who are located outside Hong Kong. Over-provision in respect of prior years represents reversal of provision for withholding taxes. Management considers the likelihood of the Group being required to pay such withholding taxes has become remote and therefore made the reversal during the period.

Deferred taxation in respect of Hong Kong Profits Tax was calculated at 16.5% (six months ended 30 June 2014: 16.5%) of the estimated temporary differences for the period.

IFRS/HKFRS 13, Fair value measurement categorises fair value measurements into a three-level hierarchy. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available

REVIEW REPORT

To the Board of Directors of APT Satellite Holdings Limited

(Incorporated in Bermuda with limited liability)

INTRODUCTION

We have reviewed the interim financial report set out on pages 11 to 29 which comprises the consolidated statement of financial position of APT Satellite Holdings Limited (the “Company”) as of 30 June 2015 and the related consolidated statement of profit or loss, statement of comprehensive income and statement of changes in equity and condensed consolidated cash flow statement for the six month period then ended and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof, and to be in compliance with either International Accounting Standard 34 “Interim financial reporting” issued by the International Accounting Standard Board (“IAS 34”) or Hong Kong Accounting Standard 34 “Interim financial reporting” issued by the Hong Kong Institute of Certified Public Accountants (“HKAS 34”), depending on whether the issuer’s annual financial statements were prepared in accordance with International Financial Reporting Standards (“IFRSs”) or Hong Kong Financial Reporting Standards (“HKFRSs”) respectively. As the annual financial statements of the Company are prepared in accordance with both IFRSs and HKFRSs, the directors are responsible for the preparation and presentation of the interim financial report in accordance with both IAS 34 and HKAS 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, “Review of interim financial information performed by the independent auditor of the entity”, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2015 is not prepared, in all material respects, in accordance with International Accounting Standard 34, “Interim financial reporting” or Hong Kong Accounting Standard 34, “Interim financial reporting”.
